

350 000 m³ of birch plywood per year

NORDECO PLYWOOD is 100% world-class birch plywood with a unique line of products, thickness, and size from 5x5 to 5x13 feet for current industries.

Plywood is made from birch wood of northern latitude, thereby providing unique characteristics: excellent water resistance, strength and a smooth surface.

NORDECO PLYWOOD products are widely applied and suitable for current industries i.e. construction, transportation engineering (from light-duty vehicles and large Euro trucks to sea tankers, furniture, flooring, wall panels and even musical instrument cases).

NORDECO PLYWOOD brand is represented by two manufacturing sites: JSC "Cherepovets Plywood and Furniture Plant" (CPFP) operating since 1958, and "Plitwood" LLC, a new plywood plant launched in September 2023.

Plitwood is the most advanced and extensive plant built in Russia under GreenField system engaged in manufacture of wide range of birch plywood.

The environmentally friendly project as an example of rational and waste-free production, where the latest technological solutions with the use of machine vision are engaged.

NORDECO PLYWOOD is among the top 3 plywood manufacturers in Russia by capacity of 350,000 m³.
