

The logo for NORDECO PLYWOOD is located in the top left corner. It consists of a white rectangular box with a teal border. Inside the box, the word "NORDECO" is written in bold black uppercase letters, and "PLYWOOD" is written in teal uppercase letters below it. The logo is partially overlaid by a decorative orange and white wood-grain pattern.

A decorative orange and white wood-grain pattern is located in the top right corner of the slide, extending horizontally across the top edge.

NORDECO PLYWOOD: two production sites, products, service for customers, logistics, positioning

December 2024

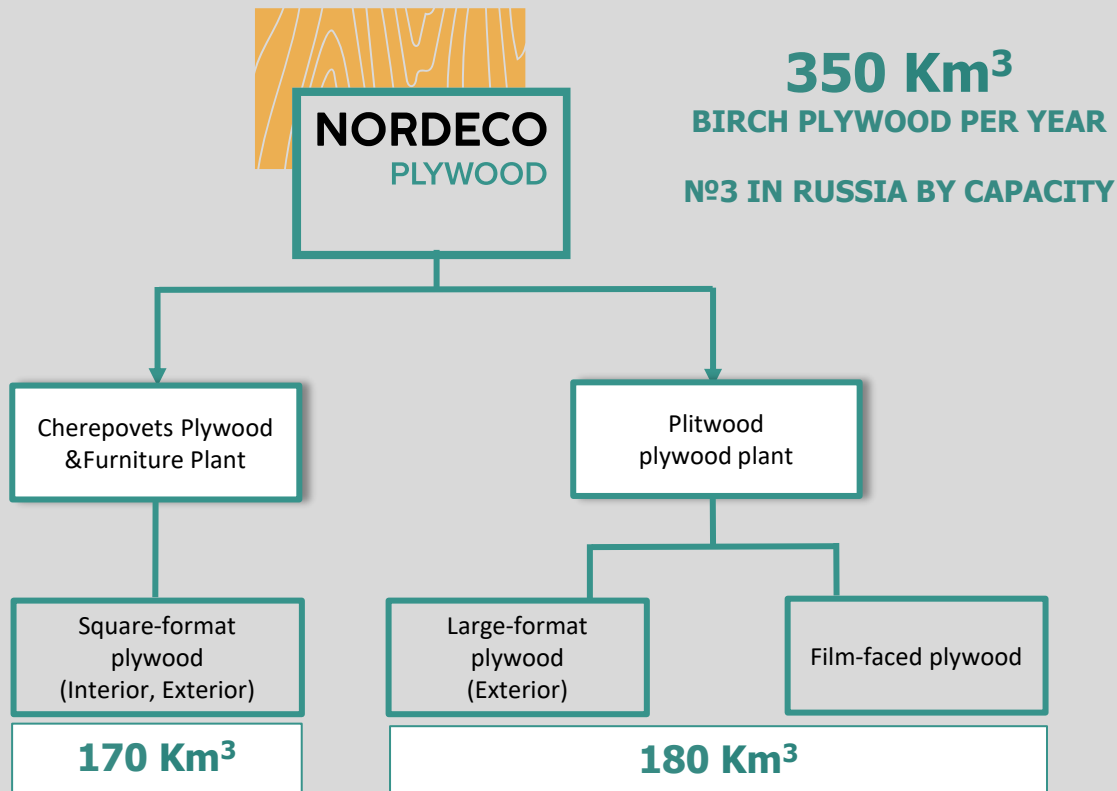

Yulia Ermakova, Marketing director Plitwood LLC.

Two production sites

Single brand NORDECO – two production sites

NORDECO
PLYWOOD

NORDECO plywood is produced by two plywood mills. Cherepovets Plywood & Furniture Plant, JSC started their production in 1958. The new greenfield plywood mill Plitwood, LLC started their production in Vologda region in 2023.

The most modern and large-scale mill in Russia for the production of large-format plywood 180 Km³ per year

A joint venture of the leading timber industry holding in the North-West region of Russia, The VLP Group, and the Cherepovets Plywood & Furniture Plant (ChFMK)

- The new mill was built using the **Greenfield system** and launched on September 22, 2023.
- **Optimal in-plant logistics** and automated movement of semi-finished goods have been designed.
- The latest technological solutions using **a machine vision system** have been introduced.
- The most modern Smart Peel RAUTE lines (Finland), a Steinemann sanding line (Switzerland), automatic veneer repair, and a 14-channel EWS flaw detector (Germany) were installed.
- The concept of integrated use of wood has been introduced: processing dust and wood chips into briquettes and chipboards.
- **Allocated logging area** – 4.5* million m³ of wood per year.
- **Synergy in logistics and product line with the VLP Group and ChFMK** (plywood, chipboard/laminated chipboard, MDF, lumber, acoustic fiberboard panels).

*Combined The VLP Group, ChFMK, Plitwood.

**Plitwood is included in the list of priority projects of Russia
in the field of forest development dated January 14, 2020
Allocated logging area 4.5 million m³ per year***

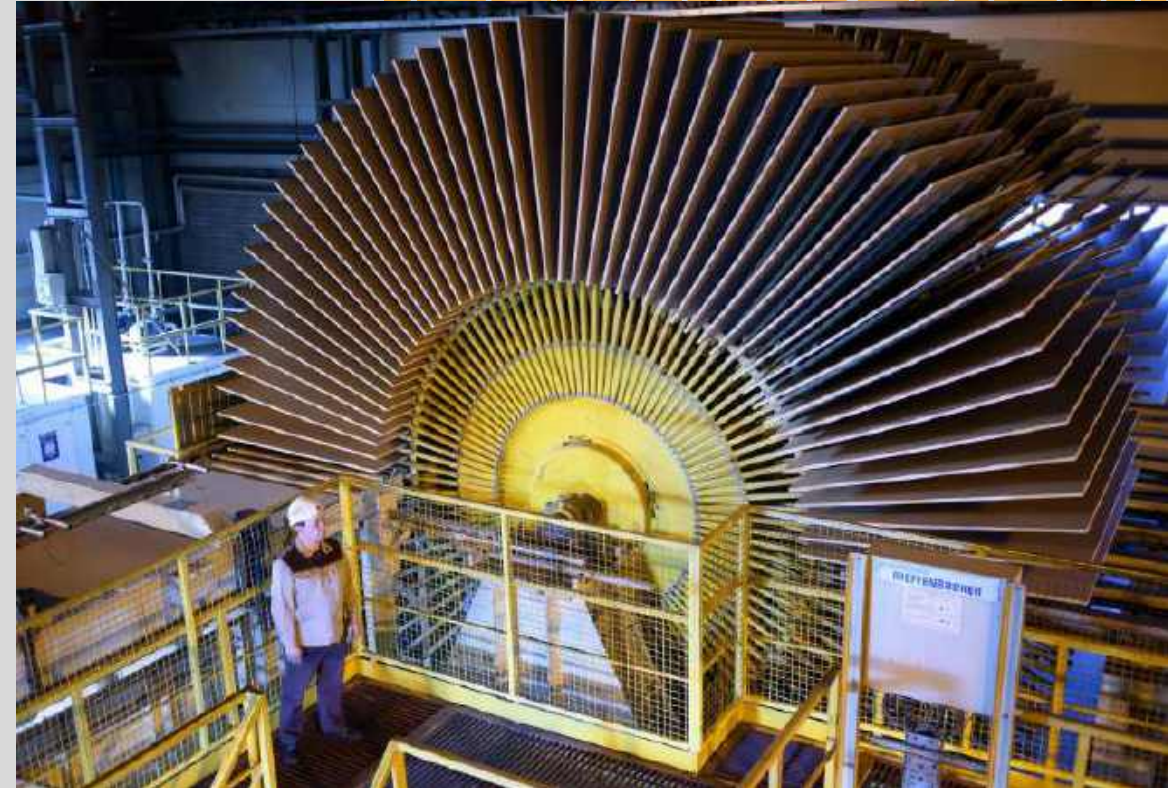

*Combined The VLP Group, CHFMK, Plitwood.

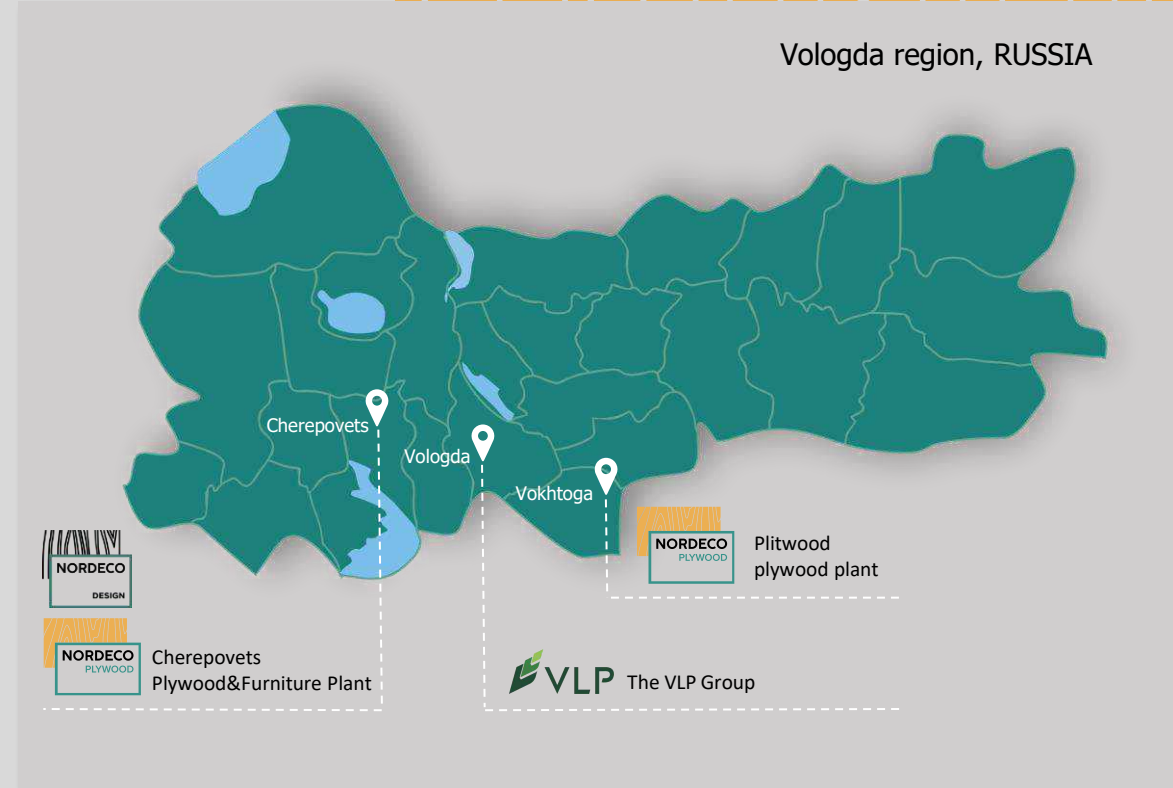

Cherepovets Plywood & Furniture Plant is one of the largest wood-based panels (WBP) and plywood manufacturers in Russia, 170 Km³ plywood and WBP 920 Km³ per year

- Cherepovets Plywood & Furniture Plant (ChFMK) dates back to 1958 and is well known both in the Russian market and abroad.
- The company is **one of the largest manufacturers of plywood and WBP in Russia: chipboard and laminated chipboard, MDF and LMDF.**
- Products are manufactured at three production sites in the Vologda region: ChFMK, VokhtogaLesDrev and the Sheksninsky wood-based panel plant under the single **NORDECO** brand.
- Modern facilities enable us to produce substantial volumes: plywood – 170 Km³, chipboard – 720 Km³, laminated chipboard – 520 Km³, MDF – 100 Km³, as well as fiberboard – 100 Km³.
- The company annually updates its collection of decors to follow the current trends in design and furniture. As of today there are more than **100** available.
- The implementation of the state-of-the-art resin production minimizes the impact on the environment and ensures a high environmental class of **E0.5**.

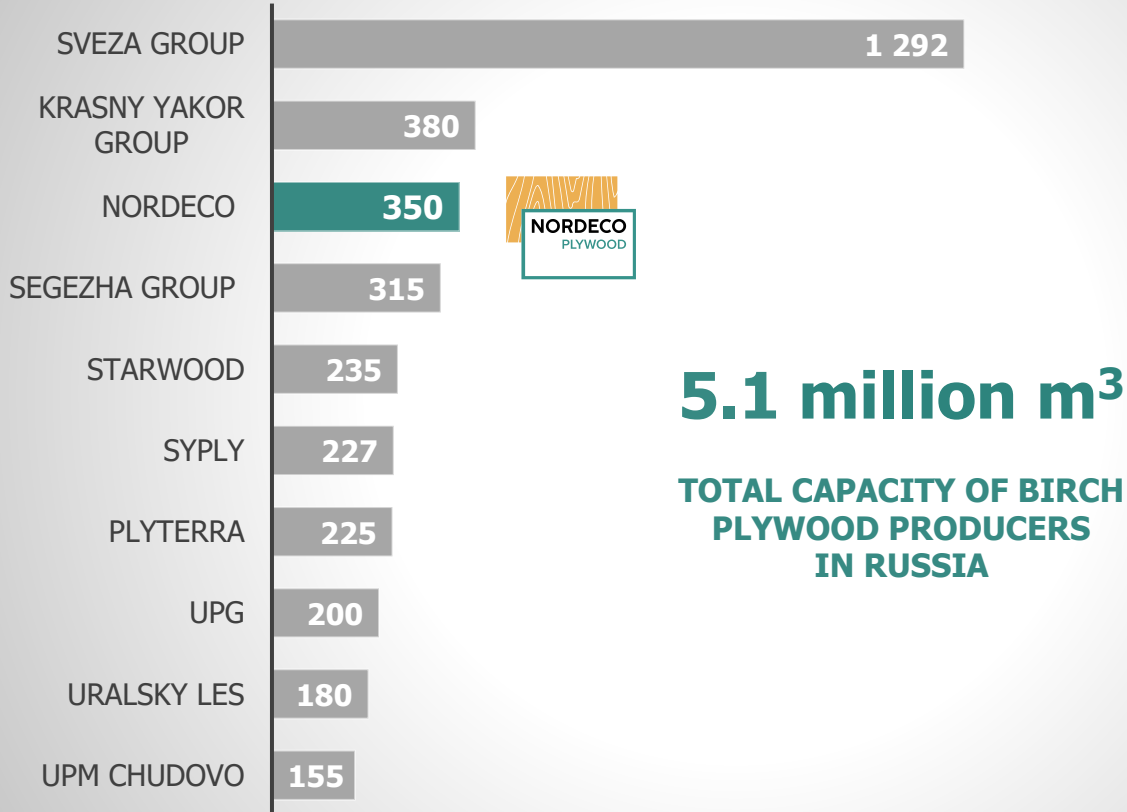

Both production sites are located in the Vologda region, North-West Russia, 485 km from Moscow

Products

NORDECO product line – synergy of two production sites

NORDECO
PLYWOOD

NORDECO
PLYWOOD

The two production sites perfectly complement each other in the product line. ChFMK produces INT/EXT 5'x5' plywood. Plitwood – large-format EXT plywood of standard sizes: 4'x8'x4', 5'x10' and special maxi-sizes: 5'x11', 5'x12', 5'x13' for unique applications. Plywood of this format is produced by only a few enterprises in the world. Up to 80% of manufactured products (144 Km³) can be film-faced.

Plitwood also produces RUF fuel birch briquettes (production capacity 8 Kt/year).

NORDECO product line: Interior, Exterior (WBP), Film-Faced

Compliant with international standards of quality, moisture resistance, strength, smooth surface

Interior, Exterior Plywood

Principal grades: B (I), S (I), BB (II), CP (III), C (IV)

Grades in demand: B/BB, S/BB, BB/BB, BB/CP, CP/CP, CP/C, C/C

Sizes: 5x5

Thickness: 3-30 mm and special to order

Producer: ChFMK

Exterior Plywood (WBP)

Principal grades: B (I), S (I), BB (II), CP (III), C (IV)

Grades in demand: B/BB, S/BB, BB/BB, BB/CP, CP/CP, CP/C, C/C

Sizes: 8x4x8, 2x8, 5x10, 5x9, 5x8, 5x7, 5x6, 5x13, 5x11, 4x11, 4x10, 3x10

Thickness: 6.5-40 mm and special to order

Producer: Plitwood

Film-Faced Plywood

80% of Plitwood capacity

Grade (I)

Smooth/smooth F/F, smooth/wire mesh F/W

Sizes: 8x4x8, 2x8, 5x10, 5x9, 5x8, 5x7, 5x6, 5x13, 5x11, 4x11, 4x10, 3x10

Thickness: 6.5-40 mm and special to order

Producer: Plitwood
