

350 000 m³

of birch plywood per year

NORDECO PLYWOOD is 100% world-class birch plywood with a unique line of products, thicknesses, and sizes from 5×5 to 5×13 feet for modern industries.

Plywood is made from Northern birch, providing unique characteristics: excellent water resistance, strength and a smooth surface.

NORDECO PLYWOOD products are widely applied and suitable for modern industries i.e. construction, commercial transport (LCV and HCV), LNG-tankers, furniture, engineered flooring, wall panels and even musical instruments cases.

NORDECO PLYWOOD brand is represented by two manufacturing sites: Cherepovets Plywood and Furniture Plant, JSC operating since 1958, and Plitwood, LLC, a new plywood plant launched in September 2023.

Plitwood is the most advanced and extensive greenfield plant built in Russia manufacturing of birch plywood.

The environmentally friendly project is an example of rational and waste-free production, where the latest technological solutions with the use of machine vision are engaged.

NORDECO PLYWOOD is among the top 3 plywood manufacturers in Russia with the capacity of 350,000 m³.
